

**AMS Education Committee
June 2016 Monthly Report**

What the Committee has been working on

The Committee met for the first time on 10 June 2016. We talked about potential ideas and projects for the summer term with Samantha, including a discussion on ways to help promote Open Educational Resources (OERs) through the #TextbookBrokeBC campaign, which will be the most relevant project throughout the summer term.

Motions brought to Council

None were approved this month.

Goals for the Committee

We are in discussion about taking EduCom in line with the VP Academics Caucus in order to find ways to support their work and strategic plans, thus we would like to possibly invite them into a future meeting. Also, I am looking at taking the goals that were brought up at the Senate Strategic Planning meeting to develop them with EduCom, in order to bring back recommendations to the Student Senate Caucus. Will continue to get the committee involved with OERs.

Signed,
Daniel Lam
Chair, Education Committee
