Concern over one e-mail blast that did not go out.
- This blast did not go out due to clerical error. This was to one of ten segments of voters with CWL log-ins.
- Even though they did NOT receive the e-mail, the ballot was still open to this segment in order for them to vote.
- An e-mail blast was sent out at 9:00am the morning after the error was detected.
- Turnout in that segment was comparable to other CWL segments.
Similarities in turnout between “CWL” segment, which did not receive e-mail blast on Monday morning and three other CWL segments.
