Education Committee Report

What the committee has been working on

- Since our new committee has met, we have been discussing a number of initiatives to potentially tackle for the year.
- After researching the potential ideas, most were found to be infeasible for the duration of the year and we felt that our efforts would be better spent elsewhere.
- As a result, our committee is currently pursuing 2 potential new ideas:
  - Academic Town Hall
  - Academic Night

Current Goals

- Get better acquainted with goals from the new Vice-President Academic and University Affairs office.
  - Open Access Policy Review coming up soon.
- Finalize plans on pursuing 2 new project ideas from above.
- If approved, develop working groups to focus on the organization and development of these ideas. Majority of our efforts this year will likely go to this.
