

Our Sandwiches and Melts:

Like our bagels, our sandwiches and bagel melts are made using only the highest quality ingredients: Black Forest ham, Abrusso salami, real smoked turkey breast. We order in fresh produce daily and grill or roast our eggplant, peppers, fennel and onions etc. in house. Our condiments are all made from scratch.

We use one kind of cream cheese. Philadelphia brand, regular or light. It costs more than other cream cheeses, but hey ... our bagels deserve the best. Our flavoured cream cheeses are made on the premises with fresh ingredients.

Compliment any bagel sandwich with a hot bowl of soup or a glass of freshly squeezed vegetable or citrus juice. Carrot-ginger, Macintosh apple, celery and beet, orange and grapefruit are just a few of the combinations you can try! Or try a frosty iced cappuccino or tropical fruit slushee.

Our Philosophy:

At Bernoulli's Bagels, we have a strong commitment to fresh, wholesome, quality ingredients, friendly service, competitive pricing and sustainability. We compost much of our vegetable waste, recycle all of our waste paper and cardboard and try to source our products locally wherever possible. We understand the necessity of providing take-out containers, but please remember that we offer discount incentives when you bring your own mug or reusable containers or bowl.

We hope you enjoy your Bernoulli experience. We believe in our product and stand by our commitment to customer satisfaction. If you have any questions, comments or concerns, please feel free to contact us at foodbevmgr@ams.ubc.ca

About Bernoulli's Bagels:

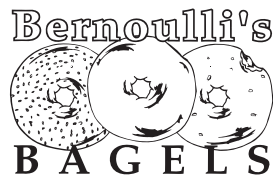

Bernoulli's bagels are genuine, Montreal style bagels. We make them the traditional way real bagels are supposed to be made. We use pure, high quality ingredients, fresh yeast (*not powdered*) and never add preservatives.

Our bagels are made on the premises and are kettle boiled in honey water and baked on a clay bottomed rotary oven to create that authentic chewy top crust and slightly crispy bottom. This is why they taste like bagels and not buns with holes in the middle.

Every bagel is weighed to ensure consistency, but our bagels are hand-rolled. If you find some bagels slightly irregular in shape, that's why! After all our bakers are only human.

We bake our bagels fresh throughout the day. Your bagel will never be more than a few hours from the oven.

Bagels are a great source of energy and complex carbohydrates. They are naturally low in fat and many of our flavours contain no fat at all! (*An example of the exception to this would be the peanut-butter chocolate chip bagels ...*)
