Business

Due to the membership changes in LPC, our first meeting this month will take place on Thursday, 26 November 2015.

The Committee is focusing the majority of its attention on upcoming Bylaw changes to run with the elections in the spring. These include housekeeping amendments and an alignment with the new Societies Act that will be coming into force once its regulations are passed, likely in late 2016.

The Committee is also currently working with the Oversight Committee to resolve the issue of Executive presence on Committees, due to the Education Committee not being filled as a Standing Committee this year.

Goals

- Discuss and draft (if approved) the aforementioned Code Changes
- Have Bylaw changes ready for a referendum tied to elections in the spring.
