

June Advocacy Committee Report to AMS Council

Submitted on: November 1, 2019

Prepared by: Cristina Ilnitche, Chair

Hi from Advocacy Committee! We met twice in June. Our first meeting was an intro meeting on how we want to work together as a committee, followed by a thorough discussion on our committee goals.

Works in Progress (or on the Horizon)

- LinkedIn Learning conversations being had by VPAUA over summer to talk about making the platform available to students. More on next steps in the future.
- Green New Deal Town hall is happening and we should attend. An opportunity to connect with other student climate advocates on AMS climate advocacy this year.
- Provincial Sexual Violence Forum was attended by VPX. Set framework for policy work for this year and many subsequent discussions will be informed by this.

Work Completed this Month

- Approved committee goals for the year
 - Focus on equity, health and safety, grad students and grants, housing, student engagement in AMS advocacy, climate advocacy
