**DESCRIPTION**  
Provide a summary of what your funds were used for

The Social Justice Centre has been under-budget for Q1, with spending increasing in Q2 with the beginning of the school year. We have provided funding for events that include: the Strategem conference, a Teach-in Against Islamophobia, a mining justice zine, an art performance for *Artivism*, and a dinner for residents of the Oppenheimer Park tent city.

**PROJECTION**  
Describe expected expenditures and income in the next quarter

As a fee-collecting group whose funds are allocated among the resource groups, we are incapable of providing expected income in the next quarter.

We plan to continue working on housing justice, mining justice and climate justice, for example through hosting Indigenous land defenders at an event in November. We will continue our process of accepting rolling funding applications, for example for a conference put on by the Gesturing Towards Decolonial Futures Collective, and an event for the Rios Vivos Tour on energy justice.

**BENEFITS**  
Describe how the funds usage benefited the student body

The Social Justice Centre is a resource group that works toward progressive social change, inclusivity and equity through a survivor-centric, harm reduction, intersectional feminist and anti-oppression framework. Our work strives for justice and liberation for all marginalized people.

Our funding has been aligned with our values in that it has facilitated moving towards climate justice, racial justice, workplace justice and mining justice.
RISKS
Describe any risks your group expects in the next quarter

We do not foresee any financial risks at this point in time.
