

AMS Office Front Redesigns

AMS Services and the AMS Main Offices

AMS Services Office

Project Rationale: To enhance the visibility and awareness of the AMS Services Office.

Design Principles and Program

Design Principles:

- To enhance visibility
- To provide a distinctive and functional vestibule to the services
- To obstruct the sightlines to the SMSS and SSM offices.

Program:

- Provide better hard copy information display and enhance user confidentiality
- Provide digital flat screen to highlight Service Centre programs

		GRAND TOTAL	\$17,446

AMS Main Office Front Redesign

Funding for the AMS Main Office portion of the project will come from alternative funding sources, including the signage project currently in progress and discretionary allocations from the VP Admin Office.

Scope of work for the Main Offices consists almost entirely of painting, with some graphics upgrades.

Timeline

Work on the AMS Services Offices will be completed during the last two weeks of February 2020.

Work on the AMS Main Offices will be completed sometime in January or February 2020.

The top right corner of the slide features a decorative arrangement of geometric shapes. It includes a dark blue triangle pointing down and to the left, a light blue triangle pointing up and to the left, a grey triangle pointing up and to the left, and another dark blue triangle pointing down and to the left. These shapes are arranged in a way that they appear to be overlapping or adjacent to each other.

Thank you.
