Max Holmes:

- In five days we got four agendas.

- We approved flexibility, but not to encourage last minute changes.
- This just confuses Council.

Chris Hakim:

- I agree; that's an important point.
- We had time pressing motions that were not ready when the agenda went out on Friday, but we'll take that feedback into consideration.

H) Presentations to Council and Accompanying Motions (10 minutes for presentation, 5 minute ? period):

Executive Goals Final presentation – The Executive

[SCD405-20]

Chris Hakim (President):

- This is the last Council meeting of this fiscal year.
- We've changed the format for the presentation to focus on personal accomplishments.
- I'm highlighting the sexual violence policy:
 - It's important. It's the first standalone sexual violence policy with mandated trauma-informed approaches.
 - Implementation critical.
 - Not just building awareness, but creating an institutional presence and comfort for students.
 - We produced brochures about processes and procedures connected to this policy, explaining as simply as possible to make the process legible and comforting.
 - We are emphasizing the Ombudsoffice as the place to go to in the process because of its impartiality.
 - We received feedback praising us for taking action.

Cristina Initchi (VP External):

- Today's announcement from the federal government about COVID support for students blurs what I was going to say.
- Great wins.
- Been pushing for grants, a BC Access Grant.
- That was a huge win: up to 40,000 students will benefit.
- It's been a long time in the works, but this is only the first step.
- We had a second win in the federal election, mobilizing students to get politicians to engage with students.
- Great turnout at our election events.
- And we collaborated with 40 student unions on a national student letter: every party has committed to some of the pieces we asked for.

Julia Burnham (VP Academic & University Affairs):

- First review for UBC's sexual misconduct policy.
 - We gave out coffee sleeves and had an incredibly successful Town Hall about why we can't understand the policy (because it's too lawyered).

8. MOVED CHRIS HAKIM, SECONDED JULIA BURNHAM:

"That time for the presentation be extended by 20 minutes."

... No objections

Julia Burnham (VP Academic & University Affairs), continued:

- Launched a brand-new Open Educational Resources (OER) Champions award to promote the use of free resources.
- Santa Ono signed off on recognition letters for the champions.

Lucia Liang (VP Finance):

- We introduced the Secure Online Transfer system which allowed students to receive reimbursements without coming to the Nest.
- The reimbursements go straight to their bank accounts.
- This is the e-transfer system the Finance team has been working on since 2017.

Cole Evans (VP Administration):

- I'll single out the reopening of the Norm Theatre.
- The idea had been floating around for a while.
- It's a great space for arts and culture.
- We've received positive feedback from student groups.

Ian Stone (Student Services Manager):

- Building and strengthening the communities we interact with.
- Funding more programs.
- Raised \$50,000 for the Food Bank (25% increase).
 - Helping students, helping feed students.
 - We had the same number of interactions this year as we did last year, but in two less months.

Questions

Alex Gonzalez:

- In the full goals document why are we missing Cole's goals?

Cole Evans:

- They are coming.
- I will send an updated document.
- This is on me for not getting it in.
- I've been swamped.
- Will definitely have it done in the next little while.

Max Holmes:

- I'd like to add a Discussion Item on this.

Michelle Marcus:

- Thanks to all for sharing your highlights.
- The Strategic Plan was a big goal this year (and in previous years).
- Can you speak to what progress was made on it, what challenges it faces?
- And how will you report back to the students on the survey they took part in?

Chris Hakim:

- We were able to do some high level items.
- Great consultation on that.
- Close to 1000 students interacting.
- The challenges, which previous Execs faced too, include reconciling Service and Business goals, which can differ a bit.
- I don't want this project to die.
- We've been looking into bringing in consultants to help.
- It was unfortunate that we couldn't get things started because of COVID.
- Cole is excited about an RFP for next fiscal year.
- Before we put things on pause, we gathered data on affordability and accountability which we will save and pass on to the next team.

Preliminary Budget Presentation – Lucia Liang

[SCD406-20]

- Due to COVID-19, we created three versions of the budget.
- Budget 1:
 - Full enrollment, 55,000 students.
 - All 20/21 projects included.
 - Business Contribution of \$250,000 (assuming the Nest opens in May)
 - Investment income same as before.
- Budget 2:
 - 10% decrease in enrollment and in spending.
 - Business contribution reduced (assuming a Nest opening in July).
 - Investment the same.
- Budget 3:
 - 20% decrease in enrollment.
 - 15% decrease in spending.
 - Business contribution reduced even further (Nest opening in September).
- Even in Budget 3, Services and Student Government will be maintained the same as far as possible.
- Comparing the coming year to 2019/20, we see:
 - \$124,000 increase in Student Services expenditure.
 - \$107,000 more to Events (but not sure about the Welcome Back Barbecue).
 - \$93,000 more to student government (new salaries for staff, but a delay in hiring).
- The minimum wage increase has produced a \$400,000 increase in our costs.
- The new Employer Health Tax will cost us an additional \$150,000.
- Cost of goods went up \$200,000.
- New financial analyst will cost \$65,000.
- New auditing company will cost \$25,000.
- The Finance Committee will meet twice a week to review asks from each department and make sure comments are available for all budget lines.

- Standardizing staff benefits for volunteers and student staff: additional compensation differs depending on the department.
- Surplus and Deficit:
 - Budget 1: \$38,827 surplus
 - Budget 2: \$712,569 deficit
 - Budget 3: \$1.156 million deficit.
- This may change depending on the information we get this summer.
- We may need to make cuts to Student Government. There will be discussions with the Executive teams.
- We feel comfortable going to deficit to ensure service quality.
- If the Nest remains closed all summer, there will likely be a new submission.

Questions

Alex Gonzalez:

- We still have a budget for Welcome Back Barbecue, but UBC is not even clear we'll be back in person in September.
- Why are we even considering this?

Lucia Liang:

- There was discussion on this in the Executive.
- There was a suggestion we take it out, but we thought we'd wait till the final budget.
- That line item will likely change.

Max Holmes:

- There's so much more to come.
- Most cuts are not here except for Communications, which is odd.
- What are the AMS's priorities?
- In a crisis we need to be clear about that.

Lucia Liang:

- The top priority is Student Services.
- Advocacy is important.
- Also Student Government.
- Right now we're likely going to hold off new asks and projects until after the first quarter.

Cole Evans:

- There should be more for Communications.
- Also Student Services and Student Government.
- Staying optimistic, but it's hard to project.
- Want to make sure to protect the core of the Society: government and services.
- Other things are more expendable.

Max Holmes:

- This was an opportunity.

- We need to be really clear right now, and we need to consult.
- Student Government a priority, yes. Communications a priority, yes, but the budget says it will be cut.
- I hope at the next meeting the Executive will come back and have a conversation on Services, advocacy, affordability.
- Can the Executive commit to coming back with a serious conversation?

Lucia Liang:

- Yes.

Q) Executive Committee Motions:

R) Constituency and Affiliate Motions:

S) Committee Motions:

T) Other Business and Notice of Motions:

10. MOVED CRISTINA ILNITCHI, SECONDED ALIREZA KAMYABI: [SCD409-20]

“Be it resolved that Council approve a temporary suspension of the U-Pass contract for the months of May to August.

Be it further resolved that Council may vote to bring the program back in its original form for UBC students before August 31, after consultation with UBC and the GSS, and it must give TransLink 30 days’ notice to terminate the suspension period.”

Note 1: Process for how to refund students who did not use their U-Pass in April is still being determined. Council will be notified of the process.

Note 2: Extension of suspension beyond the end of August may be considered at a later date.

Note: Requires 2/3rds

Cristina Ilnitchi:

- There has been lots of conversation about this, with TransLink, the student unions, the postsecondary institutions.
- We've had an influx of emails from students wanting refunds.
- A lot of courses are online, confusing the eligibility of the program.
- Essentially we identified lots of students not using U-Pass now.
- Unless they have essential work, they're not on transit.
- And buses are free anyway.
- So there's been agreement to temporarily suspend the U-Pass contract.
- Schools can decide when to come back online on 30 days' notice.
- Still discussing refunds for April.
- For now we're suspending May through August.
- This can go beyond August: that will be decided in the summer.
- The new Executive need to consult with the GSS and UBC's Campus & Community Planning and keep TransLink updated monthly.
- For now we thought the easiest thing to do was to suspend May-August.

Chris Hakim:

- Apologies for this coming late. We only heard from TransLink today.

11. MOVED CRISTINA ILNITCHI, SECONDED ALIREZA KAMYABI:

"Be it resolved that Council approve a temporary suspension of the U-Pass contract for the months of May to August.

The Speaker

- Congratulations on the last motion of the term.

U) Discussion Period

Executive Year End Report Submission

Max Holmes:

- Five of the six Executives submitted, and there was a helpful, impactful presentation.
- But for one Executive there was no report.
- This is somewhat unprecedented: an Executive not sending in their report and not letting Council know ahead of time.
- How early on did the President notify the Executives of the goals presentation?
- I understand that this Executive is going to be the next President.
- How can we ensure that this contemptuous action doesn't happen next year?

Alex Gonzalez:

- I expect the Executives to do their job or give us notice if they can't.
- I'm extremely disappointed to see this from our future President.
- Can we get an explanation?
- Why didn't he let us know when all the other Executives did theirs?

Chris Hakim:

- I sent an email to all Executives on March 9.

Katherine Westerlund:

- I would like to hear from Cole.
- All Executives work very hard in their portfolios, and all of the others were able to get their reports in.
- I am disappointed that no notice or explanation was given to us.
- Only when a question was asked did we get a brief and in my opinion unsatisfactory response.
- There is a serious concern here.

Cole Evans:

- I appreciate these comments; they're 100% valid, and I take them very seriously.
- In retrospect, I should have been proactive in informing the Board my submission would be late.
- It looks like I was disregarding the policy, but it was not meant to dismiss the importance of reports or KPI's.
- This is just the result of poor task management on my end: things got away from me.
- I take responsibility for not handling the situation correctly.

- What three Councillors have said is correct; this not what one should expect from someone who is to be President next week.
- I hope you can accept my apology.
- I'm sorry if I came across as being disrespectful to the Board.
- I am serious about following through on my goals.
- I will get the report done by the end of the week.

Abdul Alnaar:

- As the staff member assigned to work with Cole on his goals, I hope we can give him the benefit of the doubt.
- He had a lot of projects underway: club software etc.

Alex Gonzalez:

- Thank you for the apology, Cole.
- It still leaves a bad taste: that you couldn't meet the policy, but now after being called out you say you can do it by the end of the week.

Max Holmes:

- Oversight of the Executive is the Number 1 responsibility of Council.
- In the past the reports were always done.
- The policy is to be followed.
- This is known months in advance.
- In future I would suggest not having these due at the last Council meeting of the year, but at the second to last.

12. MOVED ALEX GONZALEZ, SECONDED KATHERINE WESTERLUND:

"That an email be sent by April 29 on whether to censure Cole Evans."

Dante Agosti-Moro:

- I can't vote, but I would caution that an act of censure is extremely serious, so I'm not sure email is the best idea.
- This would be better at an in person meeting.

Julia Burnham:

- This is quite an unprecedented time.
- I'm behind on certain things, and censure is extreme.
- We should practise some radical empathy.
- This was a big thing to miss, but things happen.

Kevin Zhang:

- To ensure that we are fulfilling our fiduciary duty, people should look at previous censure motions.
- Does the severity of this situation warrant censure?

Abdul Alnaar:

- As a former Speaker, let me note that there should be an opportunity for the person being censured to defend themselves.
- I don't feel this can be done over email.

Michelle Marcus:

- Why an email vote?

Alex Gonzalez:

- Discussion in person would be good, but we may not have time to meet in person; it's a busy time.

Sheldon Goldfarb:

- Only the President can call an email vote.

Chris Hakim:

- If the Board wants me to do it, I'll do it.

Alex Gonzalez:

- I understand the severity.
- I don't think empathy is the right thing.
- The Executives were told on March 9.
- Cole had time to notify us.
- It does not just seem like an honest mistake.

Michelle Marcus:

- I oppose this motion.
- I would vote against censure.
- Compassion should be our first priority.
- We should be striving for a supportive culture.
- I don't support a culture that puts deadlines over getting things done.
- I trust Cole will get things done.
- As to holding an email vote, that is the less compassionate way.
- If we want to do this motion, we should do it now.

Katherine Westerlund:

- AMS Council doesn't actually have a lot of power.
 - We think we do, but we don't.
 - We create rules that only work on the basis of agreement between the Executive and the rest of the Board.
 - We can't impeach Executives, we can't make them do things.
- Every couple of months we get updates from Executives.
 - Those are the only opportunities for Council to see what the Executives are working on.
 - Even though things are unprecedented now, I think updates are important.

- It is very bad that we didn't receive one.
- In these times these reports are more important than ever.
- They help us continue to improve the lives of students.
- Our aim is to keep Council and the AMS moving forward.
- Empathy goes both ways.
 - We didn't get any explanation of why we were not receiving these documents until a question was asked, as if it was thought that no one would notice.
 - These are hard times for everyone, but do you fall into the mindset of assuming people won't care?
 - People can come to Council and ask for extensions.
 - This is the last meeting of this Council: the new people won't be able to bring the same insight.
- We have a history of people not following our rules.
 - We have had these conversations in the past
 - This is a huge problem, and it needs to stop now.
- I am extremely disappointed.

Michelle Marcus:

- This comes down to who is this hurting.
- Not submitting this document is not really hurting students.
- Censure should be reserved for when an Executive does something that hurts students.
- We're going to get the goals report.
- We need to focus on a productive solution.
- I like the idea of moving the goal report up earlier in the year.
- As to the motion, why do we need to wait?

Alex Gonzalez:

- Code says there must be one week's notice.

There was discussion of whether the vote could be held immediately.

Sheldon Goldfarb:

- We can't vote tonight unless the action happened at this meeting.

The Speaker:

- My ruling is that the action happened at this meeting

13. MOVED ALEX GONZALEZ, SECONDED KATHERINE WESTERLUND:

"That Council censure Cole Evans for non-submission of his Executive goals report."
