

Operations Committee Updates (August 5th)

The Operations Committee completed deconstitutions on July 24th, 2020. At this meeting, a total of 44 AMS Clubs were deconstituted with some failing to renew and others electively doing so due to a lack of membership or inadequate leadership to continue the club. The supporting documents can be found in the accompanying committee minutes.

The Operation Committee will be accessing new club applications per recommendations made by the C&S Working Group on Friday, July 31st and may be constituting some new clubs following this meeting.

Finally, our committee is in the process of completing an “Alternative Resources” document that will be made available to all AMS Subsidiaries to aid in the adaptation of their activities to current circumstances. This was as a result of the feedback obtained from our Fall Clubs Engagement Survey of which we will be making a submission to the next council docket outlining the actions that the committee is taking in addressing some other concerns and needs requested for by our subsidiaries.
