MEETING DATE | September 16th, 2020
MOTION | BE IT RESOLVED THAT the proposed code changes for the Clubs Benefit Fund are adopted as presented
PREPARED BY | Lucia Liang, VP Finance
DOCUMENTS | 1. Attachment #1

DESCRIPTION & RATIONALE
This code change is intended to increase the usage of the Clubs Benefit Fund and reduce financial barriers. As per the current code, clubs have to upfront initial start-up costs before getting reimbursed by the AMS after going through a lengthy application and approval process. If a student wants the AMS to pay the vendor directly it is a very slow process. As a result, the student will still upfront the cost anyway. Another benefit that students will receive from this code change is that new clubs will get a starter pack of money to start their club. This money is intended to upfront some of the initial cost any club will incur and given the fact that a new club often struggles with gathering new members, this change will increase their chance of success. The new clubs will be able to have some money to do marketing, create a website, and buy equipment if needed. Lastly, this code change will benefit students who are traveling. As per the current code, students will be not able to get their travel covered. However, for many events, food and travel are often the highest costs to a student. If the fund cannot cover travel, it restrains the type of applications the AMS is getting for this fund. For background context, this travel ban was due to fluctuating plane ticket travel costs.
BENEFITS
Reputational, Financial, Sustainable, Social

It will benefit both students and the AMS, as students do not have to upfront costs out of pocket and wait for approval of the final report before getting money. Having to ask a student to pay money out of pocket before getting the money fundamentally defeats the purpose of a fund to support a club that is financially struggling. This change will also make it easier for the one 15-hour AMS staff to manage applications, as they will have less reimbursement requests from clubs to handle and more capacity to carry out work on other funds.

RISKS
Financial, Operational, Reputational

The risk of this code change would be club executives embezzling. However, the chance of any embezzlement taking place is very small, as any purchase leaving an AMS club needs to be approved by the treasurer of the club. If the treasurer is purchasing something, they need the signatures of 3 other club executives. Moreover, any purchase greater than $300 needs to be signed by 2 AMS executives. The AMS also does an audit every year to ensure student funding is safe.

COSTS
Financial, Resources, Lifecycle

No costs, as this is a code change. Currently the fund is underspent every year.

TIMELINE
Implementation Timeline

Effective immediately. New clubs that were approved in the 1st cycle of this fiscal year will receive retroactive funding.

CONSULTATION
Internal & External Groups
