Work Completed this Month:

At our January HR Committee meeting, we began the year with discussions regarding potential changes to the role of the policy advisor brought to us by the external office. This has been a position that has not been filled for years and changes to the JD are needed in hopes to fill this position in the near future. This issue has been redirected to the managing director and the HR department as this does not fall under the purview of this committee. At this meeting, voting members were also unanimous in the decision to recommend Max Holmes as the new Speaker of Council. We also had discussions regarding policies regarding the issue of committee chair transitions reports. HR department also provided updates regarding the situation with the remuneration of the Indigenous Committee chairs.
