

Peer Support:

- € Peer Support launched their new program for anonymous order and pickup of safer use supplies, with support from the SASC. The UBC Wellbeing Centre is also helping to promote the initiative.

Safewalk

- € We are currently in the final stages of recruiting a new Safewalk Coordinator. Amir, who has been with the team for over 3 years, is leaving his role to be able to focus on wrapping up his PhD. He will be greatly missed on our team.

Tutoring:

- € Tutoring hosted a number of events and programs in the last couple of weeks, including:
 - An Academic Resource Fair with the VPAUA Office
 - LSAT review sessions with the Pre-Law Society

Food Bank

- € Our team is working with a new supplier for dry goods after some prolonged challenges with another supplier. This included supply chain shortages for some of our regular staple items.
- € Planning for Holiday Hampers is well underway now, and we currently have a survey circulating with clients asking about what items they would like to see included this year.
